CASIO

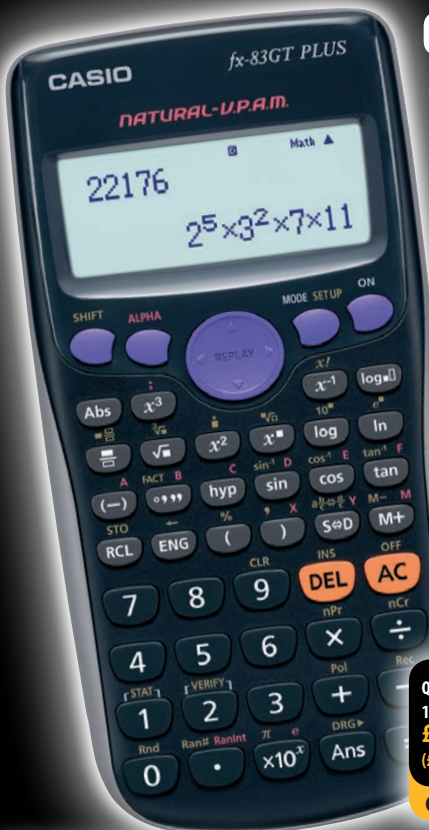

fx-83GT PLUS

The most popular scientific calculator in UK schools, with comprehensive features for GCSE maths. A robust design with hard case and a 3 year 'exchange for new' warranty, exclusively from Oxford Educational Supplies.

The natural display makes using the FX83GT Plus intuitive from day one of year 7! Enter expressions and data exactly as they appear in text books and with list-based stats, prime factorisation, recurring decimal annotation along with all standard scientific functions, this model may well see your pupils right through secondary school.

OR YOUR NEW YEAR 7s!

CASIO fx-991EX

Available NOW from Stock!

Normal, inverse Normal, Poisson and binomial distributions •
4X4 matrices • Simultaneous and polynomial equation solver • Spreadsheets

Stunning design and a new high-resolution screen delivers more information in a very clear manner, all in text book form! Algebraically perfect display with the very best definition of any scientific calculator, by a long way! Aids understanding by displaying answer to complex calculations such as solutions to quadratic, cubic or quartic polynomial inequalities, exactly as written, even with correct inequality symbols!

IN-HOUSE LASER ENGRAVING SERVICE WITH HIGH QUALITY AND FAST DELIVERY!

Secure your school stocks of calculators by selecting one of the distinctive colours of calculator and then engrave with school name, department details or even sequential serial numbers. For pupils, we can engrave individual names. Everything is done in-house so as not to affect our 24 hour delivery promise.

THE COST IS VERY REASONABLE!

Since our pricing can be as much as 20% lower than retailers such as Tesco, Sainsbury, Ryman's and W H Smith you can engrave the calculators purchased from us and the total cost will still be less than retail price in most cases.

The benefits are:

Exam eligibility – Particularly in the case of graphics, JCQ and awarding body guidelines are confusing. Marking eligible models takes away any chance of error, either by pupil or invigilator.

Standardisation – Ensure all pupils have the appropriate technology by ordering centrally and marking calculators.

Economy from security!

– No more disputes of ownership where identical products are owned by school and pupils.

Ownership – Pupils will value a personalised item and take more care of it.

Serial numbering – We can sequentially number calculators if they are for your own stock allowing accurate inventory control.

School branding – Help to foster pride in your organisation and in mathematics by engraving your logo and department details.

Please note: Some logos do not reproduce well! We will advise suitability upon receipt of your instructions.

How to order:

We simply need to know your choice of calculator, where you would like the engraving and what you would like engraving, preferably in electronic form.

We love to speak to our customers so a quick 'phone call of 2 minutes to 01869 344500 is ideal. Alternatively, an email or school order with print details attached is fine.

THIS SERVICE IS QUICK, SIMPLE AND INEXPENSIVE. PLEASE CALL NOW OR MENTION ENGRAVING AT THE TIME OF ORDERING IT WILL TAKE JUST A FEW MINUTES TO ARRANGE!

Examination Approval

The majority of the calculators supplied by Oxford Educational Supplies are permitted for use in public examinations and assessments in the UK. The only exceptions are calculators that have in-built Computer Algebra System (CAS) capabilities and there are none in this catalogue! If in doubt, please call us or contact your awarding

body. The Joint Council for Qualifications (JCQ) produce the criteria for permitted use of calculators for the English awarding bodies. The Scottish Qualifications Authority (SQA) produces the criteria for permitted use of calculators for all National Qualifications in Scotland.

ORDERING BY EMAIL

sales@oxford-educational.co.uk

PAYMENT

All UK schools have an account with us! An invoice will be sent with goods for payment within 30 days. For private orders we accept cheques, postal orders and all major credit/debit cards.

CARRIAGE

Carriage is free on orders over £150 ex VAT. Where carriage is charged the maximum is still just £6.95, the lowest in the marketplace! Overseas, offshore UK, Highlands and BFPO deliveries carry a carriage surcharge. We will confirm costs before despatch.

CUSTOMER SERVICE

If you need any further information please call Customer Service on 01869 344500.

VAT will be charged at the applicable rate.

Guidelines

This is a very simple scheme to enable you to have product available for sale at parents evenings and for pupil offers. We keep the rules as straightforward as possible!

Please telephone your order to us stating that you would like 'Sale or Return'. Make a sensible estimate of your requirements and the goods will be despatched to arrive with you the following day.

We do not require a school purchase order at this stage. A provisional invoice and delivery note will arrive with the goods

that you hold until the process has been completed. Do not submit this invoice for payment, it is just for information at this stage. The goods can stay with you for up to 30 days without obligation to purchase anything at all!

Obviously, we hope you will purchase, and at the end of 30 days you may have sold everything. In this case simply submit the invoice for payment within the next 30 days. Therefore, the complete process can take 60 days, plenty of time and no pressure!

If you do have stock left over we can arrange collection by UPS at £6.95 + VAT per box or you may return small quantities by post. Please use Recorded Delivery, for your own protection. If initial estimates are sensible we rarely find a need for returns and additional stock can be with you very promptly so there is no need to over order.

SALE OR RETURN

NO RETURN RETURNS POLICY!

Covering purchases of scientific calculators made from 1st September 2014, we will replace with new, upon receipt of an email description of the fault, a photograph of the offending article and a copy of the invoice. This policy only relates to scientific calculators and is intended to save teachers time, trouble and expense on the rare occasion that a fault occurs.

There is no change to our comprehensive 3 year exchange for new guarantee

that covers all products. In addition, our own brand OES model calculators carry a 5 year warranty. Our guarantee is 'no quibble'. If we cannot repair a product to your satisfaction within 48 hours of receipt we will replace it with a brand new equivalent. We would recommend that you use Recorded Delivery for all returns for your own protection. Please ensure that you enclose a brief letter stating your name and address and the reason for return.
